Experience

SEO Moves **Web Designer/Developer**, January 2011-Present
Felicity McGrath **Web Designer/Developer**, September 2010- Present
IT Agility **Web Designer**, April-September 2010

Recent Project Highlights:

- **508 Compliance:** Ensured websites adhere to Federal Regulations for 508 Compliance including: image tags, headline tags, navigation skips, and correct use of animations and movies.
- **Content Management Systems:** Full e-commerce website built with Drupal. Integration of checkout system and customer service chat room. Personal Blog developed in Wordpress with added SEO development.
- **Design:** Created designs in Adobe Illustrator, upon approval coded in html/css. Insured designs were user friendly and worked with site content.
- **Non-Profit Sector:** Modernized outdated websites for non-profit organizations, allowing them to reach more individuals, and raise more money for their causes.
- **Social Media:** Designed website pages that interact with Facebook and Twitter through custom built applications. Designed and built custom Facebook pages with full html, css, javascript, and php integration.
- **Database Integration:** Provided websites with database integration using PHP and mySQL. Created user login systems, image uploading, watermarking for image protection, pagination to keep content displayed correctly in working with the page design, and created admin pages for easy website monitoring and maintenance.
